

**Firmware update
GSS.compact / GSS.lamina
Update to Version 20.0**

01/18

Warning:

When updating to version 20.0, the system platform (the operating system) of the device is also updated.

For this reason, the corresponding update file is larger than a normal update.

The update time (without upload) can be up to 30 minutes!

During the update do NOT disconnect the device from the power supply! Disconnecting from the power supply will damage the device. Wait until the update is completed.
